

GROUPE MAILLARD INDUSTRIE

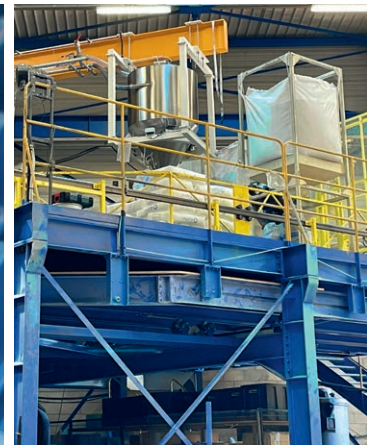

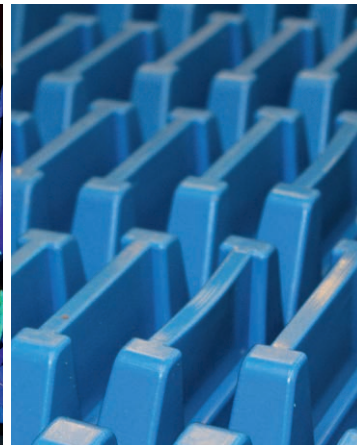

AUTOMOTIVE: SUPPLY CHAIN EQUIPMENT

Reusable packaging and logistics solutions for Car Manufacturers and Equipment Manufacturers

groupgmi.com

The GROUPE MAILLARD INDUSTRIE is a major industrial partner thanks to its expertise in plastics processing and metallurgy and its multidisciplinary Research & Design department.

Our industrial expertise in metallurgy and plastics processing provides specific reusable packaging solutions for the protection, transport, storage and handling of automotive parts and components

Thanks to our experience in the complementary professions of metallurgy and plastics processing and our extensive knowledge of the automotive supply chain organisation, we provide specific and innovative solutions to meet every challenge: environmental impact, parts quality, personnel safety, ergonomics, fatigue, automation, sequence supply... **We design and manufacture specific containers, sustainable packaging, logistics rolling stock and supply furniture that are cost-effective and adapted to the packaging of all components of a vehicle.**

We will meet your expectations whilst putting **innovation and environmental protection at heart of our solutions.**

A partial or complete management of your logistics project

GMI provides support in the **partial or complete management of all your projects in France or overseas** for the ongoing optimisation of logistics flows, **ranging from the layout of work stations to supply chain management.**
