

GROUPE MAILLARD INDUSTRIE

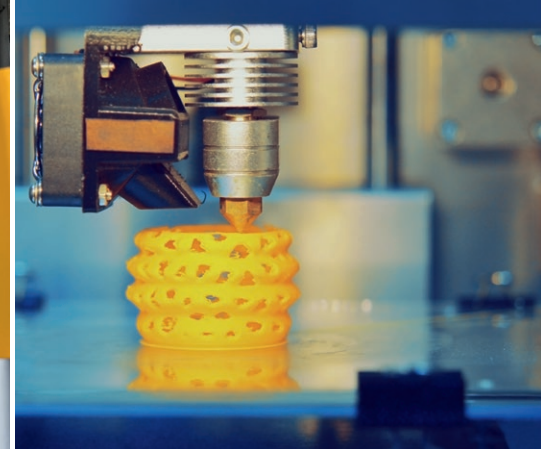

INDUSTRY

The strength of an international group,  
the expertise in multi-sector engineering,  
the reliability of an industrial partner

[groupgmi.com](http://groupgmi.com)

**Our strength: a dual expertise in metallurgy and plastics processing, combined with a high-performance Research & Design department.**

**40 years of experience in the metal and plastics industry**

- **Design, development and industrialisation** of all your metal projects and simple or complex plastic parts
- **Extensive experience with steel, aluminium, stainless steel and all thermoplastics:** PEHD, PMMA, PE, ABS, PA, PC, PS...
- **Consultancy and support** in selecting the most suitable materials and processing technologies for your project: thermoforming, rotomoulding, polyurethane elastomers, welding and wire.
- **Complete management** of your project: design, prototyping, validation, industrialization, delivery and recycling of your end-of-life plastic products.

We will meet your expectations by placing **innovation and environmental conservation** at the heart of our solutions.

**A synergy of metallurgy and plastics processing skills to serve the most demanding sectors of activity**

### PLASTIC TANK

**Leader in the design and manufacturing of rotomoulded plastic tanks for special and heavy duty vehicles.**

**ACHIEVEMENTS:** tanks for buses, coaches, lorries, two-wheeler utilities, farming machinery, trains, military vehicles, etc.

### CONSTRUCTION AND SANITATION

**Subcontractor partner to construction industry, civil engineering and sanitation manufacturers for the design and production of bespoke parts.**

**ACHIEVEMENTS:** treatment and sewage units Inspection, chambers, meters, Outflow construction, water storage tanks, etc.

## AGRICULTURE

**Design and manufacturing of assemblies or sub-assemblies for the agricultural industry.**

**ACHIEVEMENTS:** equipment for agricultural machine equipment, storage tanks, grape harvesting hoods, equestrian and fish farming equipment, etc.

## HEALTH AND HOSPITAL FITTINGS

**Design and manufacturing of plastic and metal parts and sub-assemblies for the medical and hospital sector.**

**ACHIEVEMENTS:** treatment equipment, medical trays and packaging, mobile furniture, first aid boxes, etc.

## BESPOKE CASING AND FAIRING

**Design and manufacture of bespoke protective covers, fairings, housings and bespoke protective parts.**

**ACHIEVEMENTS:** covers for special machines, fairing for special vehicles, protective housings, dashboards, bumpers, etc.

## URBAN PLANNING AND EQUIPMENT

**Support for companies working in the field of waste collection, eco-sorting, urban development and signage by providing them with technical solutions and products designed to equip public or private spaces.**

**ACHIEVEMENTS:** road signs, illuminated beacons, directional signage, container for selective sorting, waste collector, etc.

## DESIGNERS' FURNITURE AND POS ADVERTISING

**Working in partnership with design studios and communication agencies, industrialization of your creations.**

**ACHIEVEMENTS:** furniture, lights, design objects, reception desks, totems, store displays, etc.

## BOATING

**Design and manufacturing of parts and accessories for the boating industry.**

**ACHIEVEMENTS:** rotomoulded boats and canoes, pontoon floats, floating buoys, signage, port facilities, etc.

Founded in 1981, the Groupe MAILLARD INDUSTRIE (GMI) now has over 500 employees. With an international scope and presence in three different countries, GMI has become a major industrial group, leader in many markets.
